

## How Do I Choose the Right Can Liner?

When choosing a trash can liner, ask yourself this question:

Will sharp objects or heavy, wet trash be disposed of in these liners?

- ✓ If **yes**, you will want to choose a **low density** can liner.
- ✓ If **no**, a **high density** can liner should suit you just fine.

### Linear Low Density Liners

#### **Features**

- Superior tear and puncture resistance
- Leak-proof star seal
- Packed on coreless rolls for easy dispensing

vs

### Premium High Density Liners

#### **Features**

- Excellent odor and moisture barrier
- Star seal provides extra durability
- Packed on coreless rolls and in plain white boxes

Item #	Description	Capacity	Dry Capacity	Gauge	UOM	Casepack
6062817	Low Density	40-50 gallon	75	1.2 mil	Case	100
6062816	High Density	40-50 gallon	75	16 Eq	Case	250
