

TUCKER

SAFETY PRODUCTS INC.

Ultimate Safety.... Approved for Foodservice

Maximum Safety

The ultimate in wearer protection from multiple heat sources, wet and dry.

Maximum Sanitation

All of our products are designed to inhibit the growth of bacteria. Our *QuickKlean™* finish does not allow anything to stick to it, which prevents soil build up and reduces the risk of cross contamination. *QuickKlean™* products are quick and easy to clean.

Maximum Service

We design industry-leading products that can be trusted and that offer effective personal protection against burns or cuts throughout foodservice operations. We offer a one-year warranty against manufacturer's defects. If our customers are not 100% satisfied, we will work with them until they are.

Maximum Savings

Our innovative, high-grade materials protect wearers better for a longer period of time. The mitts last 10 times longer than traditional cotton quilted oven products.

QuickKlean™ Conventional-Style Oven Mitt

56122, 56152, 56182, 56242

SIZE:

Medium
(additional sizes available upon request)

LENGTH:

12", 15", 18", 24"

COLOR:

Blue with Blue *GussetGuard™* Protection

DESCRIPTION:

QuickKlean™ Conventional-Style Oven Mitt

PACK SIZE:

1 each

SPECIFICATION:

QuickKlean™ Conventional-Style Oven Mitt: Tucker Safety Products *BurnGuard®* Item #_____. Material: Poly-Cotton (color blue). *GussetGuard™* Protection. Standard size: Medium (additional sizes available upon request). Standard lengths: 12", 15", 18", and 24". Exposed exterior of the outer shell fabric permanently bonded with flame resistant, effective liquid and vapor barrier, that will not lose its protective qualities if exposed to 500°F (260°C) for 24 continuous hours. Interior Liner to be *SteamGuard™* bonded RipStop Nylon. Insulation: 100% cotton terry that has been scoured, tumbled dry and heat set to eliminate 97% of shrinkage, designed to handle 450°F (232°C)*. Must be certified by NSF and meet NSF protocol # 96/011/480/2480 testing requirements for Class I oven mitts (thermal protection, an effective liquid/vapor barrier, durability, and cleanability).

* Insulation threshold levels as determined by NSF P149 & EN407 testing standards, which will prove a "not less than 15 seconds to discomfort".
