

# 24" Ultra Hygiene Squeegee

Series 7160

## Improved Hygiene

Smooth and rounded surfaces minimize pooling water and food soils

## Prevent Over-tightening

Tap inside thread prevents over-tightening of the handle when mounted

## Improved Rubber Blade

Increased flexibility of blade conforms to surfaces for more efficient cleaning

## Updated Body Design

Elongated on ends to protect the rubber blade and guards against splashes

This is a one-piece, single-blade squeegee with an ultra-hygienic design that minimizes areas for water and food soils to collect.

## 24" Ultra Hygiene Squeegee

7160

Ideal for removing water or food debris from floors and food contact surfaces, and especially effective in areas requiring the highest level of hygiene. A splash guard helps prevent water from reaching the dried surface.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
