## The 3-in-1 Solution

### Glassware and Dishware Get Clean and *Stay Clean*.

Closed walls combined with open inside compartments ensure water and cleaning solutions thoroughly circulate to completely clean and dry glasses and dinnerware quickly.

### Efficiently Store and Transport in a Single, Sanitary Unit.

Store Camracks on a Camdolly® and cover with a Camrack Cover to create a **fully-enclosed, portable sanitary** storage unit. Nothing can touch the clean glassware and dishware stored inside.

- Employee hands cannot contaminate clean contents.
- Dirt, dust, floor-cleaning solutions, insects and rodents are kept out.
- Clean glasses and dishes stay clean during storage for one day or one month until they are used again.

### Reduce Breakage, Increase Safe Handling and Eliminate Re-washing.

When picking up racks, employee fingers can't go through closed walls and break fragile glassware, **reducing loss and risk of injury**.

Compartments provide maximum storage per rack and fast, easy, safe access for loading and unloading.

- Re-washing is eliminated which reduces labor, water and chemical expenses.
- Customers are served clean dishes and sparkling glassware every time!

# STORE AND TRANSPORT GLASSES AND DISHES

## Cover and Camdollies®

Create a self-contained, portable sanitary storage system by stacking filled Camracks and PlateSafe™ Racks on Camdollies and covering top racks with Camrack Covers.

Camrack Covers fit on any height or stack of racks, unlike vinyl covers that fit on one single height and can drag on the floor or expose contents. Eliminate cross contamination & re-washing from messy plastic wrap.

# KD SERVICE CART AND KD UTILITY CART

Versatile, strong and durable, these economically priced all purpose carts ship “knocked down” to minimize shipping costs. The KD Service Cart holds up to 300 lbs (136 Kg). The large KD Utility Cart offers 40% more storage space than the KD Service Cart and handles loads up to 400 lbs (180 Kg). And each shelf on the KD Utility Cart holds a single full size dish rack flat on the shelf.

At time of assembly, add optional shelf panels to the KD Utility Cart only to enclose shelves, ends or sides only. Four swivel, powder coated steel casters are rust resistant, quiet, steady and non-marking. Caster sidewalls are significantly thicker and stronger, eliminating “wobbly wheels.”

# The Case for Camracks® is Simple. It's Closed.

Camracks® with Camdolly®  
and Camrack Cover

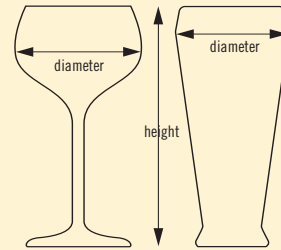

Bugs. Dirt. Germs. Cleaning chemicals. They may not be on the menu, but if you're using an ordinary open-wall dishrack system, you just might be serving them to your patrons. Not with Cambro Camracks on duty. The Camrack's unique closed-wall design combined with a Camdolly and cover allows you to wash, store and transport your dishes and glasses in the same rack. So they stay as clean as fresh-washed – no matter where they're stored or when they arrive at the table. You save time and money on rewashing. The defense rests – and now, so can you.
