G-Series Three Section 115V Storage Freezers/Self-Contained

Three Section Models, 32" Deep

Equipped with an easy to use microprocessor control!

Model G31010

Stainless Steel Front & Door(s)

Traulsen's G-Series product line also includes three section reach-in storage freezer models designed to operate at 115V. These models are available with either full or half length doors and offer the convenience of a variety of different door hingings to choose from. Built with durable exteriors, reliable controls, balanced, efficient refrigeration systems and a variety of user-friendly features, these products are the right fit for nearly any application. They are designed and built to the highest standards, and epitomize the quality design and construction Traulsen is known for.

AVAILABLE MODELS

Model #	Door	Hinging
G31000	Half	Left-Right-Right
G31001	Half	Left-Left-Right
G31002	Half	Right-Right-Right
G31003	Half	Left-Left-Left
G31010	Full	Left-Right-Right
G31011	Full	Left-Left-Right
G31012	Full	Right-Right-Right
G31013	Full	Left-Left-Left

Standard Product Features

- High Quality Stainless Steel Exterior Front and Doors
- Corrosion Resistant Anodized Aluminum One-Piece Sides
- Durable Anodized Aluminum Interior
- Microprocessor Control With LED Temperature Readout
- Top-Mounted, Balanced, Self-Contained Refrigeration System
- Large High Humidity Evaporator Coil Outside The Food Zone
- Load-Sure Guard Protects Against Improper Loading
- Full or Half Length Stainless Steel Doors With Locks
- Self-Closing Doors With Stay Open Feature At 120 Degrees
- Guaranteed For Life Cam-Lift Hinges
- Guaranteed For Life Horizontal Work Flow Door Handle
- Automatically Activated Incandescent Lights
- Damage Resistant Stainless Steel Breaker Caps
- Three (3) Adjustable Epoxy Coated Shelves Per Section, Supported On Shelf Pins (installed at the factory)
- Energy Saving Automatic Non-Electric Condensate Evaporator
- Magnetic Snap-In Door Gaskets
- Gasket Protecting Anodized Aluminum Door Liner
- Anti-Condensate Door Perimeter Heaters
- Thermostatic Expansion Valve Metering Device Provides Quick Refrigeration Recovery Times
- Stainless Steel One-Piece Louver Assembly
- 9' Cord & Plug Attached
- Set of Four (4) 6" High Casters With Locks
- One Year Parts And Labor Warranty
- Five Year Compressor Warranty

Optional Accessory Kits

- Additional Epoxy Coated Shelves*
- No. 1 Type Tray Slides* To Accommodate either: (1) 18" x 26" or (2) 14" x 18" Sheet Pans, Adjustable To 2" O.C.
- No. 4 Type Tray Slides* To Accommodate (1) 18" x 26" Sheet Pans (equips one full section)
- Universal Type Tray Slides* To Accommodate Either (1) 18" x 26" or (2) 14" x 18" Sheet Pans, or (2) 12" x 20" Steam Table Pans, Adjustable To 4" O.C.
- Chrome Plated Shelves* (for use in lieu of standard shelving)
- 6" High Adjustable Legs (for use in lieu of standard casters)
- Two Year Service/Labor Warranty Available

***Please refer to spec sheet 4-7 for optional accessory kit details**

NOTE: All optional accessory kits are shipped separately for later installation by others at the jobsite.

All Traulsen G-Series solid door freezer models are ENERGY STAR® listed for efficient operation!

Listed by Underwriters Laboratories Inc., to U.S. and Canadian safety standards and Listed by NSF International.

Specifications

Construction, Hardware and Insulation

Cabinet exterior front, louver assembly and doors are constructed of 20 gauge stainless steel. Cabinet sides (including returns), interior and door liners are constructed of anodized aluminum. The exterior cabinet top, back and bottom are constructed of heavy gauge aluminized steel. A set of four (4) 6" high casters are included.

Doors are equipped with a gasket protecting metal door pan, removable plug cylinder locks and guaranteed for life cam-lift, gravity action, self-closing metal, glide hinges with stay open feature at 120 degrees. Hinges include a concealed switch to automatically activate the interior incandescent lighting. Guaranteed for life, work flow door handles are mounted horizontally over recess in door which limits protrusion from door face into aiseways.

Easily removable for cleaning, vinyl magnetic door gasket assures tight door seal. Anti condensate heaters are located behind each door opening.

Both the cabinet and door(s) are insulated with an average of 2" thick high density, non-CFC, foamed in place polyurethane.

DIMENSIONAL DATA	3-Section Models 115V
Net Capacity cu. ft.	69.1 (1958 cu l)

Net Weight - Uncrated lbs.	690 (313 kg)
Gross Weight - Crated lbs.	870 (395 kg)

NOTES

NOTE: Figures in parentheses reflect metric equivalents.

- Figure shown reflects the area of standard shelf compliment plus the additional storage area available on the cabinet bottom.
- Based on a 90 degree F ambient and -10 degree F evaporator. For remote data please refer to spec sheet 13-2.

Equipped with one NEMA 5-20P Plug

REQUIRED CLEARANCES

In order to assure optimum performance, the condensing unit **MUST** have an adequate supply of air for cooling purposes. Therefore, the operating location must either have a minimum of 12" clearance overhead of the condensing unit or allow for unrestricted air flow at the back of the unit. Clearance of at least 12" above is required in order to perform certain maintenance tasks.

Refrigeration System

A top mounted, self-contained, balanced refrigeration system using R-404A refrigerant is conveniently located behind the one piece louver assembly. It features an easy to clean front facing condenser, thermostatic expansion valve, air-cooled, semi-hermetic compressor, large, high humidity evaporator coil located outside the food zone and a top mounted non-electric condensate evaporator. A 9' cord and plug is provided. Standard operating temperature is 0 to -5°F.

Controller

The easy to use water resistant microprocessor control system is supplied standard. It includes a 3-Digit LED Display, and a Fahrenheit or Celsius Temperature Scale Display Capability. Also equipped with a special operating mode capability, which will allow the exterior illuminated digital display to be disabled. Prior to special operating mode usage, operator must install a interior mounted thermometer to meet local health code requirements.

Interior

Standard interior arrangements include three (3) epoxy coated wire shelves per section, mounted on shelf pins, installed at the factory. Shelves are full-width, and do not have any large gaps between them requiring the use of "bridge" or "junior shelves." Recommended load limit per shelf should not exceed 225 lbs.

Warranties

Both a one year parts and labor warranty and a five year compressor warranty (self-contained models only) are provided standard. An optional 2nd year extended parts and labor warranty is also available.
