SANI-HANDS™

Made with
TENCEL®

Hand Sanitizing Wipes

Improve Your Hand Hygiene Program!
Sani-Hands®, the #1 hand wipe in healthcare is now available with fibers from 100% renewable resources.

Proper hand hygiene is a critical but often overlooked step in the prevention of foodborne illness. Sani-Hands® with Tencel® provide quick, easy hand sanitization for employees and patrons containing 65.9% SD Alcohol (by volume) to kill 99.99% of germs. The wipes also contain Tencel®, which is known for its environmentally friendly biodegradable fabric from wood pulp cellulose – no oil-based synthetic fibers or synthetic binders that are found in many wipe materials. When it comes to hygiene and the growth of bacteria, the natural properties of Tencel® deliver a variety of benefits for sensitive skin while wiping action removes soil from hands more effectively than sanitizing hand gels alone. Sani-Hands® with Tencel® makes it easy to go green.

Sani Professional® Brand Sani-Hands® with Tencel®

- Wipes made with Tencel®, contain wipe fibers from 100% renewable resources*.
- Contains 65.9% SD Alcohol (by vol.)
- Kills 99.99% of germs
- Wiping action helps remove soil from hands
- Gentle on hands – hypoallergenic with moisturizing aloe.
- Portable and convenient – can be used anywhere soap and water are not available
- Meets FDA Food Code Requirement for hand sanitization

*Derived from wood pulp grown in environmentally managed forests.
